ZACHARY M. LABE, PH.D.

I am a climate scientist trying to visualize the signal from a lot of noise.

BACKGROUND

- Interested in the role of climate change on prediction, extremes, & variability
- Published 17 peer-reviewed scientific articles in high-impact journals
- Contributor to several international annual climate assessment reports
- Experience in mentoring an undergraduate summer research project (REU)
- Presented >50 talks for both technical and non-specialist audiences
- >100 interviews with local to international media outlets on climate change
- Communicate weather/climate data on Twitter (>1 million views per month)
- Selected as a Kavli Fellow of the National Academy of Sciences in 2019

RESEARCH & WORK EXPERIENCE

Postdoctoral Research Associate

Princeton University & NOAA GFDL

May 2022 - Ongoing

Princeton, NJ

 Developing a framework to attribute extreme events in near real-time using climate models and other data-driven methods, like machine learning

Postdoctoral Researcher

Colorado State University

- 🛗 June 2020 April 2022
- Leveraged new explainable machine learning methods for extracting patterns of forced climate change from internal variability
- Awarded a Sustainability Leadership Fellowship at Colorado State University with formal training in science communication, policy, and outreach

Graduate Research Assistant

University of California, Irvine

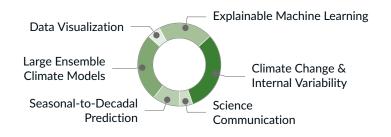

- **◊** Irvine, CA
- Assessed influences of Arctic amplification and Arctic sea ice on extreme weather by designing novel climate model experiments
- Awarded National Science Foundation NRT-DESE fellowship in the Machine Learning and Physical Sciences Program at the University of California, Irvine
- Teaching Assistant Courses: Earth System Physics, Fundamental Processes in Earth and Environmental Studies, Terrestrial Hydrology, Weather Analysis

Undergraduate Research Assistant

Cornell University

- April 2014 August 2015
- **◊** Ithaca, NY
- Evaluated the magnitude, frequency, and dynamics of phenological spring onset using community science observations
- Teaching Assistant Courses: Basic Meteorology Lab, Computer Programming and Meteorological Software

INTERESTS

EDUCATION

Ph.D. in Earth System Science

University of California, Irvine

- ## September 2017 May 2020
- Thesis: The effects of Arctic sea-ice thickness loss and stratospheric variability on mid-latitude cold spells

M.Sc. in Earth System Science

University of California, Irvine

🛗 September 2015 - September 2017

B.Sc in Atmospheric Science

Cornell University

- # August 2011 May 2015
- Distinction in Research
- Dyson Business Minor for Life Sciences

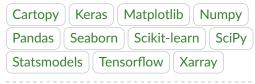

TECHNICAL SKILLS

Python Matlab bash R

STRENGTHS

Python Tools

Other Programming & Software

Git HTML NCL NCO/CDO LaTeX

• High-Performance Computing

NCAR's Cheyenne/Yellowstone Linux
NOAA's RDHPCS CMIP5/6 ESGF

BROADER SKILL SET
